

Hello KC Bowl Bowlers:

May 15, 2020

Wyandotte County moved into the RED ZONE of the reopening process effective May 11, 2020. KC BOWL, an entertainment venue, is in the YELLOW ZONE which is the next reopening step. This next step would have been May 26, but on May 14, 2020, the Governor of Kansas pushed back the date for an entertainment center to June 1. If all goes well health wise in the county during the next couple weeks, we should be allowed to reopen on June 1 with 25% capacity.

We are planning to have a few short season leagues starting in early June if our opening can go as scheduled for the first of June. Many bowlers had already signed up to bowl in a summer league. Please let us know via email to kcbowlmng1@gmail.com if you are still wanting to do so. You may call the center 913-299-1110, but **email is the preference**, since we are not at the bowling center at all hours to answer the phones. If you have not already signed up to bowl a summer league, now is the time to let us know your plans. Leagues will be done in a bit different format for this summer. We will proceed with summer league plans once we know who is interested in bowling.

Open play options will be different until the complete reopening status has occurred, which at this point looks to be in late June to early July. Check facebook and our website, kcbowl.com, for information once we receive the guidelines.

Please be advised that modifications & sanitation procedures have been put in place to help provide safety for our customers & our staff. These will include wearing a face mask and having temperatures taken with a non-contact thermometer when entering the center. There will also be social distancing requirements that will need to be implemented inside the building. It will take the cooperation of all people entering the center for this to be effective. We want to avoid another shutdown. Please contact us immediately if you have any questions.

Thank you,

Rita Mae Weems
